Burial Vault Selection Guide

Understanding the options available to protect and honor your loved one. Every vault is designed to provide lasting protection in the ground.

UNDERSTANDING BURIAL VAULTS

What Is a Burial Vault?

A burial vault is a lined and sealed outer receptacle that houses the casket. It protects the casket from the weight of the earth and heavy maintenance equipment that will pass over the grave. It also helps resist water and preserves the beauty of the cemetery or memorial park by preventing the ground from settling.

The vault is one of several charges beyond the cemetery space itself. The **Cemetery Property Guide** explains how it fits with the space, opening and closing, endowment care, and the rest.

Burial vaults are constructed of high-strength concrete and reinforced with a metal or plastic liner. They provide the most lasting protection available for a casket placed in the ground.

No Outer Burial

Unlined Outer
Container

Limited protection

Lined & Sealed Vault

Full protection

If it's not lined and sealed, it's not a burial vault.

An outer burial container, or gravebox, is an unlined concrete box with drainage holes to allow ground water to escape. By definition, if an outer burial container is not lined and sealed, it is not a burial vault.

UNDERSTANDING PROTECTION

Three Levels of Vault Construction

Burial vaults are engineered to protect the casket from the weight of the earth and heavy cemetery maintenance equipment. Each tier offers increasing levels of protection through advanced materials and construction.

PREMIUM

Bronze or Copper Lined

Reinforced concrete encased in a bronze or copper carapace with a metal-lined interior for maximum protection.

TRIUNE

Metal-Lined Concrete

Reinforced concrete with an interior liner of stainless steel, copper, or bronze for triple-layer protection.

STANDARD

Reinforced Concrete

High-strength reinforced concrete with a textured carapace exterior, engineered for long-term durability.

PREMIUM PROTECTION

The Wilbert Bronze

The pinnacle of burial vault craftsmanship, featuring a solid bronze exterior over reinforced concrete.

PREMIUM PROTECTION

Wilbert Bronze

The finest burial vault available, the Wilbert Bronze combines a solid cast bronze exterior with reinforced concrete for unmatched protection and enduring beauty.

- Solid bronze exterior shell
- Reinforced concrete core
- Bronze-lined interior
- Personalization panel included

METAL-LINED PROTECTION

The Triune Series

Triple-layer construction combines reinforced concrete with a metal interior liner and decorative carapace for lasting protection and personalization.

TRIUNE SERIES

Bronze Triune

Bronze-lined reinforced concrete with a distinctive carapace finish. Features a customizable decorative panel on the lid for personal artwork or imagery.

- Bronze interior liner
- Reinforced concrete shell
- Decorative carapace exterior
- Customizable lid panel

TRIUNE SERIES

Copper Triune

Copper-lined reinforced concrete with the distinctive Triune triple-layer construction. The decorative lid panel can be personalized with meaningful artwork.

- Copper interior liner
- Reinforced concrete shell
- Decorative carapace exterior
- Customizable lid panel

TRIUNE SERIES

Stainless Steel Triune

Stainless steel-lined reinforced concrete with the Triune triple-layer design. The decorative lid panel can feature a personalized photo collage or artwork.

- Stainless steel interior liner
- Reinforced concrete shell
- Decorative carapace exterior
- Customizable lid panel

TRIUNE SERIES

Cameo Rose

A distinctive rose-toned exterior with stainless steel-lined reinforced concrete construction. Features an elegant mirrored panel with cameo medallion and personalization nameplate.

- Stainless steel interior liner
- Rose-pink carapace finish
- Cameo medallion detail
- Personalization nameplate

TRIUNE SERIES

Veteran Triune

Veteran

Honoring those who served, the Veteran Triune features a distinguished navy blue exterior with patriotic accents, military seal medallion, and stainless steel-lined construction.

- Stainless steel interior liner
- Navy blue patriotic exterior
- Military seal medallion
- Personalization nameplate

REINFORCED CONCRETE

Standard Protection

High-strength reinforced concrete vaults engineered for long-term protection. Available in a range of styles and finishes.

STANDARD PROTECTION

Tribute

Reinforced concrete vault with a decorative carapace exterior and personalization options. A mid-range option that balances quality construction with value.

- Reinforced concrete construction
- Decorative carapace exterior
- Personalization available

STANDARD PROTECTION

Venetian

An elegant reinforced concrete vault with a warm marbled finish, decorative carapace, and personalization nameplate. A popular choice combining beauty and protection.

- Reinforced concrete construction
- Warm marble-tone exterior
- Decorative carapace finish
- Personalization nameplate

STANDARD PROTECTION

Venetian

Also available in white

The Venetian is also available in a white finish, shown here with personalized photo and floral artwork on the decorative lid panel. The same reinforced construction in a lighter tone.

- Same construction as standard Venetian
- White carapace finish
- Photo personalization shown

STANDARD PROTECTION

Continental

A reinforced concrete vault with a textured carapace exterior and integrated carrying handles. Durable and dignified, the Continental offers reliable protection at an accessible price point.

- Reinforced concrete construction
- Textured carapace exterior
- Integrated carrying handles
- Personalization nameplate

STANDARD PROTECTION

Veteran Salute

Veteran

Honoring military service with a distinguished blue-gray finish, photo plaque, and personalization nameplate. The same reinforced concrete construction at an accessible price point.

- Reinforced concrete construction
- Blue-gray patriotic exterior
- Photo personalization plaque
- Personalization nameplate

STANDARD PROTECTION

Monticello

Our most selected burial vault, the Monticello provides reliable reinforced concrete protection with a clean, simple design. A dependable choice trusted by many families.

- Reinforced concrete construction
- Textured gold exterior
- Clean, dignified design

CREMATION OPTIONS

Urn Vaults

Smaller vaults designed to protect cremation urns during ground inurnment. Available in the same quality construction tiers as burial vaults.
