

Granite Marker Guide

Ceramic photo portraits, diamond and laser etching, and every portrait shape and size with what it costs.

SECTION 1

Ceramic Steel Portraits

Kiln-fired porcelain photo plaques with a lifetime warranty

Ceramic steel portraits are kiln-fired porcelain photo plaques recessed into the marker. The image is fused into the porcelain at high temperature, so it will **not fade, peel, or discolor** outdoors. Available in full color, sepia, or black & white. Recessed mounting is included at time of order.

GENERALLY

\$470–\$4,265

Where a particular one falls in that range depends on the size, the location and the options you choose. I would rather give you a real number than a guess. Call or email me and I will put an exact quote in writing for you, with no obligation.

SQUARE PORTRAITS

Size	Color	B&W
4" × 4"	\$990	\$495

SECTION 2

Diamond & Laser Etched Portraits

Permanent artwork carved directly into the granite

Hand diamond etching is a portrait technique where skilled artisans etch a photograph's likeness directly into the granite, one dot at a time, using diamond-plated tools. The result is a deep, permanent impression, more lifelike and durable than a surface-level laser etch. For best results, the portrait area should be at least 6" tall, and a high-quality source photo makes a real difference.

Absolute Black granite only. Subject to artistic rendering, so it isn't an exact photo duplicate.

GET AN EXACT QUOTE

—Prices above cover the most common cases. Because etched portraits are custom artwork, the best way to get an exact price for more than two people, a full scene, or an unusual size is to ask me for a quote.

All prices effective 03/01/2026. Prices include granite, design/engraving, installation, and 10.4% WA sales tax. All granite markers are covered by the PCM Limited Warranty. Prices subject to change without notice.
