FUNERAL PLANNING AGREEMENT ("Agreement")

Performance Guarantee

The Funeral Firm **will** provide the planned funeral as shown on the accompanying statement of funeral goods and services unless factors beyond its control, defined in §18.39 prevent it from doing so. The Funeral Firm will furnish the brands or makes of merchandise shown or, if unavailable, merchandise of equivalent quality. If the Funeral Firm is unable to provide the planned funeral, another funeral firm may agree to provide the goods and services.

Price Guarantee

The Funeral Firm **will** accept the Forethought Life Insurance Company life insurance or annuity contract ("Insurance Contract") death benefit as the full payment for the Guaranteed Funeral Goods and Services, even if the retail price for those items at the time of need is greater than the death benefit. The Funeral Firm is not entitled to receive the death benefits purchased to fund Non-Guaranteed Cash Advance Items to cover the retail price of guaranteed items.

If the at-need retail price is less than the death benefit, the excess will be divided between the Funeral Firm and the beneficiary named in the Insurance Contract, the Funeral Firm being entitled to the percentage of the preneed funeral price attributable to Guaranteed Funeral Goods and Services, the beneficiary entitled to the percentage attributable to Cash Advance Items. **Accordingly, the proceeds paid to the Funeral Firm may be greater than the retail price of the provided funeral.** The beneficiary may authorize payment of its percentage of the excess for additional items not listed in this Agreement

Limitation on Price and Performance Guarantees

The Funeral Firm must be designated to receive the death benefit payable under the Insurance Contract. These guarantees will not apply if the Insurance Contract is voided, lapsed, borrowed against, or surrendered, coverage is not purchased within 30 days, or death benefits are paid under the suicide provision of the Insurance Contract.

Freedom of Choice Guarantee

Designating the Funeral Firm to receive the proceeds of the Insurance Contract does not restrict any right to purchase funeral merchandise or services in the open market, with the advantages of competition, at any time before the Funeral Firm delivers the funeral.

Cancellation Guarantee

This Agreement may be cancelled at any time. Cancellation of this Agreement does not cancel your Insurance Contract, which may only be terminated in accordance with its terms and conditions of the Insurance Contract. The owner of the Insurance Contract will receive the cash value if the Insurance Contract is surrendered more than 30 days from issue. In the early years, the cash value may be substantially less than the premiums paid.

Notice to Recipients of Long Term Care

If you are currently receiving or later qualify for long-term care services through the State, any death benefit from the coverage not used for services may be subject to claim for reimbursement for long-term care services paid by the State. RCW 18.39.250(11) controls the recoupment of any funds by the State.

Disclosures

By completing this Agreement and by signing an application for the Insurance Contract, you acknowledge that: you were shown current General, Casket and Outer Burial Container price lists prior to discussing those prices, services or merchandise; you have read, understood, and received a copy of this Agreement; the person presenting this document is a representative of the Funeral Firm and an agent of Forethought Life Insurance Company to whom commissions may be paid.

Section 2: Change of Ownership to The Forethought Trust (Permanent and Irrevocable)

INITIAL HERE

(Owner Initials)

I want to make my coverage irrevocable, waiving all rights to surrender it for cash or obtain a loan. (Except when funding an Indiana Funeral Planning Agreement, this option should only be used when on or applying for government assistance.)

I hereby irrevocably assign ownership of the Forethought Life insurance policy/certificate or annuity to the Funeral Firm identified on the application submitted with this form in return for the promise to deliver funeral services and merchandise, and for the promise of the Funeral Firm to immediately transfer ownership of the policy/certificate/annuity to the Forethought Trust on my behalf. **I have read and understand the terms under the Change of Ownership section regarding this assignment provided on the other side of this form.**

INITIAL HERE

(Owner Initials)

In anticipation of the insured applying for or receiving Medicaid assistance, I have designated the insured's estate as the named beneficiary of the Forethought Life insurance policy, certificate, or annuity to receive any proceeds remaining after delivery of all services and merchandise under the Funeral Planning Agreement. I hereby waive any right I have to change the named beneficiary. I understand that this waiver of my right to change the named beneficiary is effective upon the issuance of the policy, certificate, or annuity, is permanent, and is irrevocable.

(Funeral Firm Representative Initials)

Funeral Firm's Assignment to The Forethought Trust

On behalf of the Funeral Firm, I accept the above assignment, and hereby transfer ownership of the policy/certificate/annuity to the Forethought Trust. I understand that any right to receive payment of the proceeds is contingent upon delivery of the funeral services and merchandise.

Section 3: Non-Resident Sales Acknowledgement

INITIAL HERE

(Owner Initials)

I am pre-planning a funeral outside of my resident state (see additional information on other side of this form).

I certify that:

- The information collected on the application is true and complete; and
- The proposed certificate/policy holder pre-planned a funeral with the funeral home in the state identified in the application; and
- The solicitation and sale of the insurance product and the signing of the application occurred solely within the state identified on the application.

Owner is required to sign below if any portion of this form has been completed.

PLEASE SEE NEXT PAGE FOR INFORMATION AND INSTRUCTIONS

Section 4: Information and Instructions

Change of Ownership to the Forethought Trust (Permanent and Irrevocable)

Unless you have waived the right to exercise the free look provision of your policy/certificate/annuity, this assignment is effective 90 days (30 days in Indiana) after the policy/certificate/annuity issue date. This is permanent and irrevocable, and except as stated below, eliminates the power to control the policy/certificate/annuity.

Ownership of the policy/certificate/annuity will subsequently be transferred by the Funeral Firm to The Forethought Trust which shall assure payment to the Funeral Firm, or any subsequently designated funeral firm, for the provision of funeral services and merchandise.

Waiving all rights under the policy/certificate/annuity includes waiving the right to surrender it for cash and to obtain a loan against the policy/certificate/annuity cash value. Those rights are not assigned to any other person.

The original owner must continue to pay all premiums due on the policy/certificate/annuity applied for after the assignment.

The right to change the designated funeral firm and the right to change the named beneficiary, pursuant to any limitations noted below, remains with the original owner.

Alaska FPAs: The use of preneed burial contract funds is limited to burial space provisions only, as defined by Social Security Administration.

Illinois FPAs: For certificates of insurance irrevocably assigned to a trust to fund a guaranteed-price prepaid funeral or burial contract, upon death of any insured who was receiving government assistance, the State of Illinois will receive any proceeds remaining payable under the certificate after payment of the designated amount for funeral goods and services up to an amount equal to the total medical assistance paid on behalf of the insured.

Indiana FPAs: All certificates or annuities funding an Indiana Funeral Planning Agreement must be irrevocably assigned. For a life insurance policy or a prepaid funeral agreement to be exempt as a resource in determining eligibility for Medicaid assistance, the applicant's or recipient's estate must be designated to receive any remaining amounts after delivery of funeral services and merchandise, and the applicant must waive the right to change that designation.

New Jersey FPAs: If the insured is receiving public assistance or planning to receive public assistance, any excess proceeds not subject to the assignment to Funeral Firm, are to be paid to the State of New Jersey. This supersedes any prior designated Beneficiary. If the insured is not receiving public assistance at the time of death, any excess proceeds will be paid to the beneficiary designated.

Non-Resident Sales Acknowledgement

Generally, insurance products should not be solicited outside the state where the owner resides. However, in some cases it may be permissible for an owner to complete and sign an application for Forethought products in other states. Such transactions may be proper when the owner has a significant connection to the non-resident state, such as pre-planning a funeral, that brings the owner to the non-resident state.

Some states prohibit non-resident sales to residents of their states.

If a non-resident application is submitted for a resident of one of the following states, we will decline the application.

Arkansas, Massachusetts, Minnesota, Mississippi, New York, Oregon, Washington, and Utah.

In order for the Home Office to document the appropriateness of non-resident solicitation, completion of certification on the front of this document is an administrative requirement whenever an owner applies for a Forethought preneed life insurance product in a state that is not the owner's resident state. **NOTE: this form is not an application and does not become part of the insurance contract**.

BONNEY WATSON CREMATORY POLICIES AND PROCEDURES

The cremation, processing and disposition of the remains of the deceased shall be performed in accordance with all governing laws, and the policies, procedures and requirements of the crematory. This document describes many of the policies and procedures of the crematory which are incorporated in our Cremation Authorization and Disposition Form.

GENERAL REQUIREMENTS

1. Any scheduled ceremonies or viewings have been completed.
2. Civil and medical authorities have issued all required permits.
3. All necessary authorizations have been obtained, and no objections have been raised.
4. The urn must be purchased or provided by the family prior to the cremation being scheduled.

CASKET/CONTAINERS

The crematory in accordance with Washington state law requires either a casket or cremation container for cremation. All caskets and cremation containers must meet the following standards: 1) be composed of combustible materials suitable for cremation; 2) be able to be closed to provide a complete covering for the human remains; 3) be resistant to leakage or spillage; 4) be sufficient for handling with ease; 5) be able to provide protection for the health and safety of crematory personnel.

Many caskets that are comprised primarily of combustible materials also contain some exterior parts, e.g., decorative handles or rails, which are not combustible and that may cause damage to the cremation equipment. The crematory, at its sole discretion, reserves the right to remove these non-combustible materials prior to cremation and to discard them with similar materials from other cremations and other refuse in a non-recoverable manner.

Caskets or cremation containers comprised of non-combustible material will not be accepted.

PACEMAKERS, PROSTHESES, SILICONE AND RADIOACTIVE DEVICES

Pacemakers and prostheses, as well as any other mechanical or radioactive devices or implants in the decedent, may create a hazardous condition when placed in the cremation chamber. It is imperative that such items be removed prior to cremation. If the crematory is not notified of these devices and implants, and not instructed to remove them, then the person(s) authorizing the cremation will be responsible for any damages caused to the crematory or crematory personnel by such devices or implants.

THE CREMATION PROCESS

All cremations are performed individually. Exceptions are only made in the case of close relatives and then only with the prior written instructions of the Authorizing Agent(s).

Cremation is performed by placing the deceased in a casket or cremation container and then placing the casket or cremation container into a cremation chamber or retort, where they are subjected to intense heat and flame. Through the use of a suitable fuel, incineration of the container and contents is accomplished and all substances are consumed or driven off, except bone fragments (calcium compounds) and metal (including dental gold and silver and other nonhuman material) as the temperature is not sufficient to consume them.

Due to the nature of the cremation process, any personal possessions or valuable materials, such as dental gold or jewelry (as well as any body prosthesis or dental bridgework), that are left with the decedent and not removed from the casket or container prior to cremation will be destroyed or if not destroyed, will be disposed of by the crematory. Arrangements must be made for the removal of any such items prior to the cremation.

Following a cooling period: the cremated remains, which will normally weigh several pounds in the case of an average size adult, are then swept from the cremation chamber. The crematory makes a reasonable effort to remove all the cremated remains from the cremation chamber, but it is impossible to remove all of them, as some dust and other residue from the process are always left behind. In addition, while every effort will be made to avoid commingling, inadvertent or incidental commingling of minute particles of cremated remains from the residue of previous cremations is a possibility.

After the cremated remains are removed from the cremation chamber, all non-combustible items (in so far as possible), such as bridgework, and materials from the casket or the container, such as hinges, latches, nails, etc., will be separated and removed from the human bone fragments by visible or magnetic selection and will be disposed of with similar materials from other cremations in a non-recoverable manner.

When the cremated remains are removed from the cremation chamber, the skeletal remains often contain recognizable bone fragments. Unless otherwise specified, and after the bone fragments have been separated from the other material, they will then be mechanically processed (pulverized). This process may cause incidental commingling of the remains with the residue from the processing of previously cremated remains. The granulated particles will be virtually unrecognizable as human remains.

URNS/ CONTAINERS

After the cremated remains have been processed, they will be placed in the designated urn or container. The crematory will make a reasonable effort to put all the cremated remains in the urn or container, except for dust or other residue that may remain on the processing equipment.

The crematory in accordance with Washington state law requires that the cremated human remains be placed in a sealable container, or in such container as may have been ordered or supplied by the authorizing agent. If the entire cremated human remains will not fit within the designated container, the remainder of the cremated remains must be returned to the authorizing agent in a second container, clearly identified as being part of, and together with the designated container. Upon written consent of the authorizing agent, excess cremated human remains may be disposed of in any legal manner.

RELEASING OF PERMANENT URN(S)
