What To Do When Death Occurs

Immediate steps and who to contact — we're here to guide you.

When a death occurs, it can be hard to know where to begin. The steps below will help guide you — so you can focus on your family.

At Home: If your loved one was under hospice care, notify the hospice nurse. They will contact the funeral home on your behalf. If there was no hospice provider, call 911.

At a Hospital: Let the hospital know which funeral home you have chosen. They will handle contacting us once their paperwork is complete.

At a Hospice or Care Facility: Notify the staff which funeral home you have selected — they will reach out to us directly.

Out of State or Country: Contact your local Bonney Watson location. We can coordinate transportation and work with a funeral home where the death occurred.

Key Things to Know

- Call relatives and close friends as soon as you're ready.
- Gather the full legal name, date of birth, Social Security number, and home address — needed for the death certificate.
- Notify the deceased's employer and any relevant insurance agencies.
- We are available 24 hours a day — please reach out to us at any time.

Understanding Your Burial & Entombment Options

*Plans, pricing, and what's included — explained
clearly.*

Choosing burial or mausoleum entombment is a deeply personal decision. Bonney Watson offers several plans designed to honor your loved one in a way that fits your family's wishes and budget.

Ground burial places your loved one in the earth within a cemetery. Mausoleum entombment places your loved one above ground within a mausoleum structure — a dignified and lasting tribute often chosen by families who prefer this form of interment.

Each plan includes the professional services of our funeral directors, the transfer of your loved one to our care, and use of a hearse. You can add a viewing, a formal ceremony, or choose a simple graveside service.

Key Things to Know

- All plans require a casket purchased from Bonney Watson to qualify for the bundled price.
- Friday, Saturday, Sunday, holiday, and evening ceremonies may carry additional fees.
- Mausoleum entombment may require embalming — please consult with your cemetery.
- Washington Memorial Park offers both ground burial and mausoleum entombment.
- Transportation within a 30-mile radius is included; additional mileage is \$3.75/mile.

Information About Death Certificates

How many to order, how to get them, and what they cost.

A death certificate is an official legal document you will need to settle accounts, transfer property, claim benefits, and handle other personal affairs after a loss.

How the process works: A physician signs and states the cause of death. Our team then works with your family to gather the required information, and we file the completed certificate with the county vital records office. This typically takes 7–10 business days.

How many do you need? We recommend one certified copy for each: life insurance, bank accounts, real estate or mortgage, retirement or pension accounts, military benefits, motor vehicle titles, and utilities or credit cards in the deceased's name.

Cost in Washington State: Each certified copy is \$25.00. Pierce County adds a \$4.00 shipping fee plus a \$10.00 review fee. Some institutions accept photocopies — always check before ordering extras.

Important: If a correction is needed, the WA Department of Health allows one free exchange, but corrected certificates can take up to 8 weeks.

Key Things to Know

- Order more than you think you need — reordering later takes time.
- We handle the filing on your behalf — no need to visit the health department yourself.
- Ask each institution whether they require a certified copy or will accept a photocopy.

This comprehensive plan is ideal for families who wish to hold a viewing and a formal funeral ceremony before burial or entombment. It includes everything needed to create a meaningful, dignified tribute.

 (B) Because this plan includes a courtesy discount of \$295.00 OFF our usual and customary charges: no deletions will be allowed. Sales tax will be added to all merchandise items.

Wood Caskets Suitable for Burial

Materials, construction, and key things to know.

Wood caskets are crafted from a variety of natural materials, including select hardwood solids, hardwood veneers, and pine. Each brings its own distinctive character, warmth, and beauty to the final tribute.

All wood caskets in this selection are suitable for both traditional ground burial and mausoleum entombment. Many feature beautiful interior appointments in crepe or linwood fabrics, with personalization options including LifeView decorative panels and Memory Safe® drawers.

Wood Types & What They Mean

Select Hardwood Solid: Crafted entirely from solid hardwood such as cherry, walnut, or pecan. The most durable and richly grained option, with deep, consistent color throughout.

Select Hardwoods & Veneers: A solid hardwood frame with a thin layer of fine wood applied to exterior surfaces. Offers the look of solid wood with excellent stability and value.

Pine Solids & Veneers: A lighter, more economical option with natural charm. Pine has a warm, rustic quality and is well-suited for both burial and cremation.

Key Things to Know

- All caskets shown are suitable for ground burial and mausoleum entombment.
- Wood caskets are arranged from lowest to highest price for easy comparison.
- Pre-Interment Warranty is included on many select hardwood models.
- Personalization options — including decorative panels and memory drawers — are available on many models.
- Prices shown are before sales tax. A complete price list is available at arrangement.

Metal Caskets Suitable for Burial

Steel gauges, finishes, and key things to know.

Metal caskets offer exceptional durability and are available in a wide range of colors, finishes, and interior fabrics. They are a popular choice for both ground burial and mausoleum entombment.

Bonney Watson's metal casket selection spans several steel gauges and finish styles, from brushed dual-tone finishes to high-gloss painted exteriors. Many models include personalization options such as decorative casket panels, memory drawers, and the Living Memorial® program.

Steel Gauge & What It Means

18-Gauge Steel (Medium Weight): A thicker, heavier steel offering greater strength and rigidity. A popular choice for families seeking a more substantial casket.

20-Gauge Steel: A standard weight steel widely used across our selection. Offers excellent quality and value at a range of price points.

Non-Gasketed Steel: A straightforward construction without a rubber gasket seal. A practical, dignified option available in multiple colors.

Key Things to Know

- All metal caskets shown are suitable for ground burial and mausoleum entombment.
- Caskets are arranged from lowest to highest price for easy comparison.
- Many models accept decorative casket panels for personalization.
- The Living Memorial® and Memorial Record® programs are included on most models.
- Prices shown are before sales tax. A complete price list is available at arrangement.
