Standard Urn Burial

Benefits of Cremation Memorialization

Dedicated Resting Place

A permanent, named memorial gives family and friends a meaningful place to visit and reflect.

Easily Accessible

Located throughout Washington Memorial Park's beautiful grounds — just minutes from SeaTac.

Economically Advantageous

Cremation memorialization is significantly more affordable than traditional burial while offering the same dignity.

Personalization Options

Glass-front niches, flower vases, photos, and mementos allow each space to tell a unique story.

Why Choose a Niche?

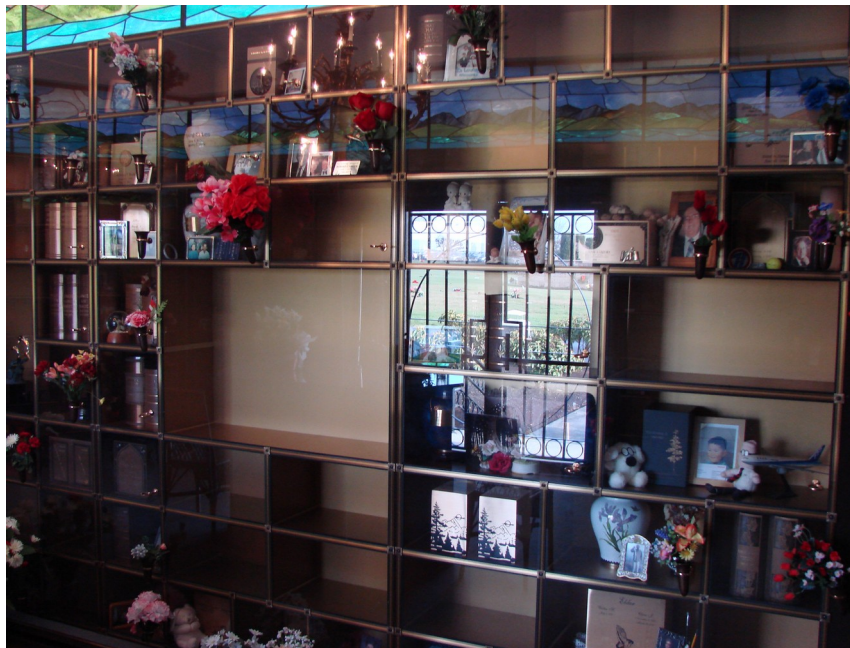

How a dedicated resting place compares to the alternatives

Niche at Washington Memorial Park	Keeping Ashes at Home	Scattering Remains
✓ A permanent, named place all family members can visit anytime	– Out-of-town family must visit one household to pay respects	– Once scattered, no physical place remains to visit or return to
✓ No coordination needed — open to loved ones year-round	– Urn must be secured, moved, or rehomed if family relocates	– Family members may grieve the absence of a tangible memorial
✓ Protected in a secure, maintained structure for generations	– No permanent memorial or engraved tribute	– Requires permits depending on location in Washington State
✓ Fully personalized with inscriptions, photos & keepsakes	– Can become an emotional burden for whoever inherits the urn	– Cannot be undone — a permanent decision made in grief
✓ Service timing is flexible — no urgency to plan immediately	– No structured place for gathering or remembrance rituals	– No opportunity for personalization or lasting inscription
✓ Endowment Care Fund ensures the grounds are maintained forever	– Future generations may not know where remains end up	– May not reflect the wishes of all family members

Columbarium & Niches

Four beautiful columbaria to choose from

What Is a Columbarium?

A columbarium is a structure containing small chambers — called niches — designed to hold cremated remains.

Glass-Front Niches

Allow you to personalize with photos and mementos visible through the front.

Granite-Front Niches

Classic, secure granite panels — elegant and weather-resistant.

Two Interment Rights

Allows two urns to be placed inside — urns are not included and must be purchased separately.
